Education

University of Chicago

B.S. Environmental Science

Minor(s): Data Science, Latin American & Caribbean Studies

Relevant Coursework: Global Biogeochemical Cycles, Data Visualization, Intro to Machine Learning

Chicago, IL

June 2026

Study Abroad

Study abroad coursework in Sustainability.

Berlin, Germany

August 2025 – Sept. 2025

Study Abroad

Study abroad coursework in Latin American Civilization.

Oaxaca, Mexico

January 2025 – March 2025

Student-Researcher

Student-Researcher position at the Marine Biological Laboratory.

Woods Hole, MA

August 2024 – Dec. 2024

Alliance Ted K. Tajima High School

High School Diploma

Valedictorian (4.5/4.0), Odyssey Scholarship, the Gates Scholarship

Los Angeles, CA

June 2022

Research Experience

Harris School of Public Policy – Climate Systems Engineering Initiative

Research Assistant

Chicago, IL

Dec. 2025 – Feb. 2026

- Engineered large-scale scientific datasets for over 2,000 climate scientists using Python web scraping of academic sources and publication databases to facilitate atmospheric research collaborations.
- Developed custom Python scripts for data cleaning and classification, verifying contact information and documenting expertise to assess qualifications against specific project criteria.
- Maintained high data integrity and rigorous documentation standards to ensure the accuracy of researcher databases.

Marine Biological Laboratory (MBL)

Student Researcher

Woods Hole, MA

Sept. 2024 – Dec. 2024

- Successfully designed and executed an independent co-culture research project investigating the relationship between sargassum seaweed and New England coral reef systems.
- Conducted rigorous fieldwork and environmental sampling, analyzing biogeochemical cycles including nutrient runoff, groundwater, and estuary salinity.
- Utilized ArcGIS Pro for spatial analysis and mapping to visualize and quantify human impacts on terrestrial and aquatic ecosystems.
- Synthesized complex data into clear, actionable insights and presented research findings to a professional audience at a research symposium.

- Managed all phases of project development within a strict five-week timeline, requiring meticulous documentation and proactive problem-solving.

Internship Experience

Exactics Biotech

Chicago, IL

Research Intern

June 2025 – Sept. 2025

- Conducted primary research for a scientific paper on malaria diagnostics, specifically focusing on the efficacy of multiplex diagnostic tools in resource-limited regions like Nigeria.
- Assisted in the prototyping and development of rapid at-home STI tests, supporting lab-based experiments and the creation of validation protocols.
- Collaborated directly with start-up co-founders on operational tasks and laboratory testing to support the full product development lifecycle.

COMEXUS Fulbright-García Robles

Mexico City, Mexico

Data Management Intern

May 2024 – August 2024

- Consolidated and digitized historical physical and Excel alumni records into a centralized website database for the Fulbright Mexico Alumni network.
- Synthesized data to prepare orientation and departure reports for Program Managers, facilitating international transitions for graduate students between the US and Mexico.
- Played a key role in organizing five international graduate student events, including high-profile collaborations with the US Embassy and the US Minister of Education.

SouthEast Environmental TaskForce (SETF)

Chicago, IL

Remote Intern

June 2023 – August 2023

- Developed data-driven environmental advocacy campaigns aimed at increasing awareness of environmental disparities in South Side Chicago neighborhoods.
- Pioneered the testing and validation of the EnviroReport app alongside SETF members, providing critical feedback prior to its community-wide launch.
- Analyzed localized data to create presentable insights regarding regional environmental health and social equity.

Job Experience

Crown School of Social Work

Chicago, IL

Event Planner Assistant

March 2025 – July 2026

- Coordinated end-to-end logistics for high-profile conferences, lectures, and networking receptions, managing events from initial conceptualization through successful completion.
- Facilitated professional communications with external vendors and campus departments to synchronize schedules, materials, and complex event requirements.
- Produced professional event materials, including presentation packets, signage, and digital promotional assets, while ensuring all outputs met brand and accessibility standards.
- Demonstrated professional reliability and time management by balancing a full-time courseload with two years of consistent part-time employment.

University of Chicago Maroon Caller Line

Chicago, IL

Fundraiser

Jan. 2024 – March 2024

- Strengthened communication and listening skills through professional fundraising efforts at the University of Chicago Alumni House.
- Engaged with a diverse alumni base with complex or challenging donor interactions.

Marshalls TJX Companies

Hollywood, CA

Retail Sales Associate

Jan. 2021 – Sept. 2022

- Delivered efficient and friendly customer service in a fast-paced retail environment, managing transactions and store inquiries.
- Maintained high standards for store presentation by organizing floor displays and restocking merchandise.

- Managed cash handling and promoted company loyalty programs and special promotions to drive customer engagement.

Leadership & Activities

Organization of LGBTQ+ Students

Chicago, IL

Social Chair

Sept. 2023 – May 2024

- Tripled general meeting attendance and doubled the student email list through targeted social media outreach and community engagement strategies.
- Served as the lead organizer for the End-of-Year Gala at the SMART Museum, managing all logistics including catering, music, and vendor coordination.
- Collaborated with the board to plan and execute diverse social and networking events for the University of Chicago's LGBTQ+ community.

Organization of Latin American Students

Chicago, IL

Member

Sept. 2022 – June 2026

- Collaborated with fellow members to plan and execute cultural events, including coordinating logistics, creating stage props, and performing in the annual cultural showcase.
- Contributed to event preparation and operations by supporting setup, organization, and cross-functional teamwork for campus programming.

MECHA

Chicago, IL

Member

Sept. 2022 – March 2025

- Participated in community outreach and advocacy initiatives supporting local families and youth through volunteer service and educational programming.
- Assisted with organizing community events and activities, including supervising and engaging children while collaborating with fellow volunteers.

USC Young Researchers Program

Los Angeles, CA

Researcher/Mentee

May 2021 – August 2021

- Collaborated with USC Ph.D. students to research the potential applications of magnetic nanoparticles in 3D cell cultures.
- Completed an intensive, simulated Ph.D. program, gaining foundational skills in interdisciplinary academic research and scientific inquiry.

Oaxacan Youth Initiative

Los Angeles, CA

Volunteer-Mentor

May 2021 – August 2021

- Mentored local youth in Los Angeles to help them navigate the challenges of virtual learning and high school transition.
- Provided academic support and guidance to Oaxacan youth, fostering a positive environment for learning and personal growth.

Skills & Interests

Technical: Python, (Web scraping, cleaning, visualization, machine learning), ArcGIS Pro (Spatial analysis, mapping), R, Excel.
