ksolano@uchicago.edu | (213) 284-6222 | Chicago, IL

EDUCATION

The University of Chicago

B.S. Environmental Science | Minor: Data Science, Latin American & Caribbean Studies

Awarded: The Gates Scholarship, National College Match Scholarship, Odyssey Scholarship

Chicago, IL

June 2026

EXPERIENCE

Harris School of Public Policy - Climate Systems Engineering Initiative

Research Assistant

Chicago, IL

Dec. 2025 – Feb. 2026

- Researched & verified contact information for 2000+ climate scientists, creating a dataset for atmospheric research collaborations.
- Built multiple datasets of 1000+ climate scientists through Python web scraping of academic sources and publication databases.
- Created Python scripts for data cleaning, classification, and documented climate expertise to assess qualifications against project criteria.

Exactics Biotech

Research Intern

Chicago, IL

June 2025 – Sept 2025

- Conducted research for an introductory section of a paper on malaria diagnostics, focusing on multiplex diagnostic tools for resource-limited regions like Nigeria.
- Assisted in the development of rapid at-home STI tests, supporting lab experiments and validation protocols.
- Collaborated with start-up cofounders on lab testing and operational tasks supporting product development.

COMEXUS Fulbright-García Robles

Project and Data Management Intern

Mexico City, Mexico

May 2024 – August 2024

- Consolidated physical and Excel alumni records into a centralized website database for the Fulbright Mexico Alumni network.
- Prepared various reports for Program Managers to facilitate grad student orientations and departures to and from the US.
- Assisted in organizing five international grad student events, including a collaborative event with the US Embassy and the US Minister of Education.

SouthEast Environmental TaskForce

Remote Intern

Chicago, IL

June 2023 – August 2023

- Contributed to SETF using a data-driven approach to develop environmental advocacy campaigns.
- Pioneered the testing of EnviroReport, alongside SETF members, before the app launch for community members.
- Centered on increasing awareness of environmental disparities in South Side Chicago neighborhoods with data interpretation through EnviroReport.

LEADERSHIP & ACTIVITIES

Marine Biological Laboratory - Semester in Environmental Science

Student Researcher

Woods Hole, MA

Sept. 2024 – Dec. 2024

- Coordinated a Fall semester at the MBL to engage with environmental sampling, data analysis for GIS mapping, and field studies.
- Conducted an independent co-culture research project studying sargassum seaweed and New England corals.
- Presented research findings at a research symposium in December 2024.

SKILLS

Languages: English (Native), Spanish (Native), Portuguese (Intermediate)

Technical Skills: Python (data cleaning, web scraping, data visualization, machine learning, modeling), ArcGIS (mapping, spatial analysis), R, Excel
